## Tarot Consultations

The amazing thing about Tarot is that it accurately reflects your life's journey. It mirrors precisely:

- Where you were
- Where you are
- Where you will be

It also helps me fine tune my clairvoyant skills as Tarot exercises that part of the brain where these abilities are.

## Why get a reading of the cards ?

It is a great way to see where you are going. I map out strategies for you to best take advantage of your life path. It is amazingly accurate, but above all, it is an invaluable tool, or guide if you wish, in working through the maze of human interaction and life's experiences.

## What about free will ?

Free will is about choice and the choices we make. Unfortunately, although we make the best choices in life that we can, our vision and scope is often limited and narrow and our choices are often poor ones.

Ever heard the phrase "if only I had known!" We are often so close to our problems that we can't see them. Tarot helps guide you through your choices and often presents things to you that you never thought about before - and it widens your choices and strategies to succeed in life.

Because Tarot never robs you of your free will or choice readings are extremely accurate, if you choose a negative debilitating path, then that's your choice. However, I would prefer you choose the best one for you.

**Destiny** is created out of your free will and the choices you make.

**Fate** is the end result of living your life blindly and at the choices of others.

I come from "non judgment". I am also bound by a code of ethics and all information remains strictly confidential.

## What to expect ?

When you have your reading by Skype it is best to be prepared. Many people feel the energy from a reading as uplifting and energizing.

- Center and balance yourself as best you can.
- Have focus and intention.

A reading is a sacred meeting of energies. A time where you spiritually connect to your higher self through the cards and gain direction in life. Because the natural language of your higher self is picture / visual: The cards, with my psychic intuitive ability taps into, reflects and connects to this energy.

I read the **patterns of energy** in the card layout so open up, trust and be willing to discuss your life issues, the more you relax the better it is in discovering how the patterns of energy are unfolding and mirroring for you.

## Mapping

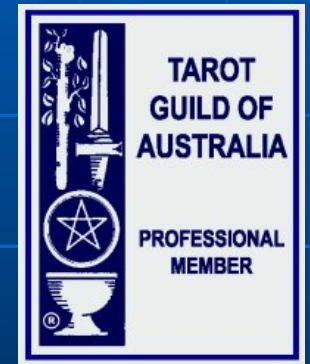

I will map out with you any possible strategies that you need to explore in your life. The cards never take away free will or choice.

A prediction can be changed whereas a prophecy cannot.

To get the best value from your reading It is best to work as a team. Don't hold back and sit there with your arms folded.

- Have specific issues / questions ready to look at and work through.
- Be willing to be open and let the patterns of energy connect to you.
- If a plan or action is discussed, don't dismiss it, think about it carefully
- It is wise to get a reading whenever you feel you need one.
